

Save the Date for Comarch User Group 2023

Kraków, Poland, 09 May 2023 - 11 May 2023

It is a pleasure to announce that Comarch User Group 2023 will be held between May 9, 2023 and May 11, 2023 in Kraków, Poland. We cannot wait to meet with all our partners and customers in person.

During the three-day event, there will be an opportunity to discuss key aspects from the technology and IT industry, such as technology-driven business solutions and current B2B/B2C challenges, and to attend speeches by experts from Comarch and our partners, who will focus on the company's systems and methods. Over 450 professionals from different industries will gather together in Kraków. Don't miss the chance to be part of it.

On the agenda, there are lots of inspirational speeches that will provide you with comprehensive information about the latest innovations from different industries. On the stage will be Comarch's highly-skilled experts, as well as partners from overseas. We can reveal that you will be able to attend a presentation prepared by professional guests, such as TM Forum's representative.

We can assure you that there will also be many opportunities for networking. After inspiring presentations on the first day, we cordially invite you to dinner at the historic Wierzynek restaurant located in the heart of the Kraków market. We can't wait for the second day either. Then, you will get a chance to take part in events at some of the venues of the medieval city center.

If you want to be a part of the CUG 2023, please register here to book your place at the event:

During the conference, a visit to Comarch Innovation Space in our headquarters is planned, where we present the possibilities and practical use of cutting-edge technologies. In Comarch 5G lab, you will receive a demonstration of how 5G-based services work. During the tour, you will be able to experience the power of private 5G networks and learn how to take advantage of this technology in your own business. Please contact your account manager to schedule a visit to Comarch Innovation Space on May 9th or 10th.

If you have questions about the event, please do not hesitate to contact our event coordinator Anna Cyganik, at Anna.Cyganik@comarch.com
