

Find Our Team at 2023 Power Grid Digitalization Forum

Montreal, Canada, 25 Oct 2023 - 26 Oct 2023

Comarch became a sponsor of 2023 Power Grid Digitalization Forum, and will be present at the Hotel Omni Mont-Royal in Montreal, Canada, from October 25-26.

The 2023 Power Grid Digitization Forum is a two-day event focusing on topics around optimized operations and management of overall organizational network costs, and the challenges facing the utilities industry. Experts from the United States and Canada will gather for insightful sessions to discuss the trends, opportunities and challenges of digital approaches to eliminating today's disruptors.

The main topics that will be discussed during the forum are:

- Disruptive technologies such as AI, hydrogen technology, predictive analytics
- Smart grid technology
- Intelligent automation
- Cybersecurity
- Industry case studies

During this event, Comarch experts will be available for you to talk about the latest news in the field of industry regulations, standards and cutting-edge technologies in digitization.

Additionally, mark your calendar to **listen to Michał Mędrala, Head of OSS Consulting and Piotr Stokłosa, Pre-sales Solutions Architect, on October 26 at 8:15 am EDT, who will lead**

an in-depth session on "*The Implementation of an Operational Support System (OSS) for One of the Largest Utility Companies in the United States to Address Network Change Delays*".
