

Be Our Guest at UTC Region 3 Meeting

Knoxville, USA, 04 Oct 2023 - 06 Oct 2023

From October 4 - 6, the Comarch team will be at the Region 3 Meeting organized by The Utilities Technology Council (UTC), a global trade association bringing together utilities companies, one of whose main goals is to create telecommunications networks needed to support the delivery of critical utility services. The meeting will be held at the UT Conference Center in Knoxville, Tennessee.

The most important topics for the industry will be discussed during the meeting, including:

- The impact of 5G and artificial intelligence
- Common cyber threats, security gaps and how to protect against them
- Tips on how to choose technology partners and how to properly involve them in your business

Comarch, as the Gold Sponsor of the event, will also be there to discuss the most important topics for the industry and show how cooperation with us can contribute to the success of your company. **Meet us at our booth #6 and we will show you how to use a strategic approach to simplify utility network management using OSS.**

To register or see the full meeting agenda, please visit the [organizer's website](#).

If you want to book meeting with our specialists during the event, please contact Louis Rossi at Louis.Rossi@comarch.com
