Join Comarch for Broadband Nation Expo 2024 in Washington, D.C.

Washington, D.C., USA, 09 Oct 2024 – 11 Oct 2024

We are thrilled to announce our participation as a Gold Sponsor at the upcoming Broadband Nation Expo, which will take place from October 9 to 11 at the Gaylord Convention Center in Washington, D.C. This conference unites industry leaders to discuss the future of broadband and its role in eliminating the digital divide.

Broadband Nation Expo is the largest meeting ground for the U.S. broadband industry. It gathers technology, business, and policy leaders to explore broadband's transformative role in bridging the digital divide across the nation. The event is a platform for discussing the best solutions and emphasizing the importance of cooperation between the industry and government to bring broadband connectivity to every home in America.

As an industry leader, we are excited to join the conversation through our participation in the "***Leaders' Roundtable – From Underground Fiber to Satellites – How Tech Will Bridge the Digital Divide***" **discussion panel. Tomasz Staszek, Head of BSS Consulting at Comarch, will represent us on the main stage on October 9 at 11:50 EDT**, sharing insights on leveraging technology to enhance connectivity across communities.

In addition to the discussion panel, we invite all attendees to visit the Comarch stand during the conference. Our team will be available to discuss Comarch's latest innovations and how they contribute to advancing broadband technology and infrastructure.

For further details about the event and to register, please visit the [Broadband Nation Expo website](#).

To arrange a meeting with our team or for any inquiries, please contact Adrianna Habdas, our event coordinator, at adrianna.habdas@comarch.com.
